Name : Varsha Reddy

Task - Exploratory Data Analysis on Dataset -Terrorism

Dataset: https://bit.ly/2TKSXn5

Level : Intermediate Level

Batch : August 2022

Importing the libraries for Data Manipulation and Data Visualization

In [1]:
```
import pandas as pd
import numpy as np
```

In [2]:
```
import seaborn as sns
import matplotlib.pyplot as plt
```

In [3]:
```
import plotly.offline as py
import plotly.graph_objs as go
import plotly.express as px
from collections import Counter
%matplotlib inline
import warnings
warnings.filterwarnings('ignore')
```

Importing the Dataset

In [4]:
```
df = pd.read_csv("globalterrorismdb_0718dist.csv",encoding = "ISO-8859-1")
```

Preprocessing the Data

In [5]:
```
df.head()
```

	eventid	iyear	imonth	iday	approxdate	extended	resolution	country	country_txt	region	...	addnotes	scite1	scite2	scite3	dbsource	INT_LOG	INT_IDEO	INT_MISC	INT_ANY	related
